

## TERRACORPS

**TerraCorps**, TerraCorps is an AmeriCorps affiliated start-up environmental non-profit preparing and mobilizing emerging leaders to help communities gain access to and conserve land for people and nature. Working at the intersection of the land conservation and urban agriculture movements, our vision is to create a future where land is the foundation of health and well-being for ALL people in EVERY community.

This year's TerraCorps program will support up to eighty-eight full-time AmeriCorps Members across three states (MA, RI, and CT), serving in one of five positions: Land Stewardship Coordinator (LSC), Regional Collaboration Coordinator (RCC), Community Engagement Coordinator (CEC), Youth Education Coordinator (YEC), or Sustainable Agriculture Coordinator (SAC). Members will serve in full-time, 11-month terms (August 31st, 2020-July 30, 2021) in which they complete at least 1,700 hours of service with one of our partner organizations. Members receive a living allowance, education award, and additional AmeriCorps benefits (see full list at end of announcement).

Mount Grace Land Conservation Trust will host a Youth Education Coordinator for the 2020-21 service year. Information about all TerraCorps positions is available at [terracorps.org](http://terracorps.org).

Mount Grace Land Conservation Trust (Mount Grace) is a regional land trust that is deeply rooted in collaboration. Since 1986, we have worked with dozens of partners and hundreds of landowners to protect more than 34,000 acres of woods, streams, farms, and trails in our picturesque rural region. Nestled between Gardner and Greenfield and anchored by the Quabbin Reservoir and its thousands of acres of pristine trails, we are working throughout 23 towns to foster a deep conservation ethic. We are nationally recognized for our innovative and collaborative projects, and Mount Grace was the home and founder of the TerraCorps program. Four of our eleven staff are AmeriCorps alumni, three of whom served with TerraCorps specifically. This year, we are hosting four TerraCorps members who will be fully integrated into our conservation, stewardship, and engagement teams. We are committed to developing the

next generation of conservation leaders, and we are continually inspired by the creativity and vision of the TerraCorps members who choose to join us each year.

Our region is beautiful and precious—and has benefited from a tremendous legacy of land conservation—but we have so many more people to reach and land to protect. We are ready for the the 2020-2021 team to help us create the next chapter of Mount Grace’s story.

**Youth Education Coordinators (YEC)** build the long-term capacity of their Service Site by engaging youth in service learning, experiential education, and inquiry-based science and nature learning projects. They collaborate with schools, libraries, and youth groups on projects that connect young people to the natural world, improve science literacy, and encourage healthy lifestyles. By serving with youth in an outdoor learning environment, they reinforce the connection between people, nature, and community and foster an inclusive land stewardship ethic in future generations.

TerraCorps members engage with their supervisors to develop and carry out three or more capacity building projects over the course of the service year. Some of these projects will involve recruiting, training, and/or managing community volunteers. **Mount Grace Land Conservation Trust has proposed the following potential projects for their Youth Education Coordinator:**

- 1) Provide in-class programs and field trips to grades K-4 to build on our five-year relationship with the elementary schools in three local towns
- 2) Collaborate with Tribal Nation representatives to provide curriculum and guided field trips on the land for local elementary students
- 3) Organize and create events on conservation lands to increase awareness and appreciation of nature and the outdoors for underserved students
- 4) Coordinate implementation of a trail project on elementary school campus with interpretive signage made by students
- 5) Collaborate with the LSC TerraCorps Member to lead local scout groups to earn badges

Development of these and other projects will occur during the first two months of service and consider the member’s interests and skills.
